EDUCATION

Undergraduate Data Science and AI Student | Al-Hussein Technical University | Jordan

SKILLS

Programming Languages:
C, Java, and Python

Data Science & Ai:
machine learning, predictive modeling, feature engineering, data cleaning using pandas, NumPy, scikit-learn, and matplotlib.

Tools & Technologies:
SQL, Jupyter Notebook, Word, Excel, Canva

Soft Skills:
Team Leadership, Communication, Event Planning, Problem Solving

Event & Project Management:
GDG on Campus – Co-Lead & Event Manager and HTU Events & Workshops Coordination

Research & Analysis:
Data Analysis, Research, Reporting

WORK EXPERIENCE

Wider Community | Remote   **2026 - Present**
-CEO of Interns
Leading the founding engineering cohort to build a scalable digital ecosystem. Bridging operational strategy with technical execution while utilizing data analytics to optimize squad performance and drive community growth.

AIMinds Jo. | Jordan   **2025 - Present**
-Head of Strategy & Growth
Leading strategic planning and community growth initiatives, building partnerships with organizations and universities, and supporting projects, hackathons, and mentorship programs to strengthen engagement in AI and Data Science.

British Council | Jordan   **2025 - Present**
-Exams Invigilator
Supervised exam sessions, ensuring compliance with British Council standards and maintaining exam integrity through proper security procedures and candidate management. Assisted with setup, distribution, and collection of exam materials.

Center of Professional Development, Al-Hussein Technical University | Jordan   **2025**
-Assistant Event Coordinator
Supported the execution of workshops and training events, conducted follow-up calls, and maintained attendance records using Excel.

CERTIFICATES

-British Council Exam Operations Invigilation Training
-DataCamp Supervised Learning with scikit-learn, Data Manipulation

PROJECTS

School of Engineering Technology STEM Expo – Al-Hussein Technical University
Designed an autonomous line-following robot using infrared sensors and microcontroller logic, successfully completing the project with distinction for technical design and teamwork.

Logitech Sales Optimization – Al-Hussein Technical University
Optimized Amazon sales and inventory strategies using Excel, Power BI, and Orange for predictive analysis, identifying a strategic price equilibrium to improve sales rank performance

AI-Powered Data Cleaning Tool for PwC Jordan – Al-Hussein Technical University
AI Data Cleaning Solution – PwC Jordan (Case Study) Proposed an AI-driven automation system for PwC's audit teams to eliminate manual data preparation, integrating Arabic/English NLP and ISO 27001 standards to improve efficiency by 30% and ensure data privacy.

EXTRACURRICULAR ACTIVITIES

Google Developer Groups | Al-Hussein Technical University
-Co-Leader   2025 - Present
-Event Manager   2024 - 2025
Managed workshops, assisted with event logistics, and currently leading the community's activities and collaborations as Co-Leader.

Al-Hussein Technical University | Jordan
-Usher   2024 - Present
Organized and supported student activities and events at the university.

HTU Math Marathon | Al-Hussein Technical University
-Event Manager   2025
Supported competition operations (e.g., registration, participant coordination).

Children's Museum Jordan | Jordan
-Volunteer Coordinator   2023 - 2024
Organized educational activities and supported museum operations.
